ABOUT ME

Hi, I'm Rafael Rodrigues, a passionate Fullstack Web Developer with experience in creating amazing digital experiences since 2016.

Throughout my journey, I've had the pleasure of developing a wide range of projects that I'm proud to showcase in my portfolio.

As a developer, I take great pride in crafting web applications that not only look great but also function seamlessly.

My expertise in responsive design, front-end development, and back-end programming enables me to deliver exceptional user experiences that drive business results.

So if you're looking for a developer who can bring your ideas to life, look no further than my portfolio, let's work together to create something truly exceptional.

WORK EXPERIENCE

Computer hardware repairman

Reballtek Azores [04/17/2021 – 06/13/2021]

HOBBIES AND INTERESTS

Programming

1. Programming since 2016 as a hobby.
2. Fullstack (UX/UI & Backend) Web Developer
3. HTML, CSS, Bootstrap, TailwindCSS, JavaScript, ReactJS, NextJS, NodeJS, PHP, SQL & Python

PROJECTS

[12/27/2018 – 10/15/2020]

VariousHosting (Server Hosting)

1. Developed, managed and ran a server hosting business online for 1 year and a half by myself.
2. Acquired lots of knowledge about IT infrastructure and business management.

[2021]

Chiptoid (Technology Store)

1. Developed a technology store website design with HTML, CSS and Bootstrap.
2. Learned how to use Bootstrap to make a responsive web design.
3. Strengthened Front-End development skills with Bootstrap.

[2021 – 08/2022]

DataShell (Server Monitoring)

As part of my "IT and Management" course, I developed a final project that involved building a website and a client software application. The project showcased my abilities in various programming languages such as HTML, CSS, JS, PHP, MySQL, jQuery, AJAX, and Python.

Key Achievements:

1. Successfully built a website using a combination of HTML, CSS, JS, PHP, MySQL, jQuery, and AJAX.
2. Developed a client software application using Python and MySQL to retrieve device properties and data.
3. Demonstrated problem-solving skills by identifying and resolving various issues and bugs throughout the project.
4. Improved proficiency in various development skills such as programming languages, web development, and database management.

[2022]

PicoPeeK Gaming (Gaming Strategy Platform)

In this project, I successfully designed and developed a web-based gaming strategy platform using HTML, CSS, JavaScript, Bootstrap, PHP, and SQL. The platform is tailored to support gamers and teams in organizing and sharing strategies, tactics, and training resources to enhance their gameplay.

Key Achievements:

1. Developed a web-based platform for gamers to upload, share, and organize strategies using technologies such as HTML, CSS, JavaScript, Bootstrap, PHP, and SQL.
2. Developed the backend infrastructure using PHP and SQL to manage user accounts, strategy uploads, and data storage efficiently.
3. Designed a custom database schema in SQL to store users' strategies, team data, and uploaded media files, ensuring quick retrieval and secure storage.
4. Integrated a file upload system for images and videos, making it easy for users to share training materials.

[2023]

CSGOSpicy (Gambling Website)

In this project I successfully designed and developed a client-side gambling website using HTML, CSS, and JS. The website was created from scratch and was modeled after other popular websites in the industry.

Key Achievements:

1. Designed and developed a client-side gambling website using technologies such as HTML, CSS, JS and jQuery.
2. Created the website from scratch, with inspiration drawn from other popular websites in the industry.
3. Implemented a user-friendly interface that allowed for easy navigation and an enjoyable user experience.
4. Ensured the website was responsive and compatible with various browsers and devices.
